

L-PVDOMICS STUDY

Biological Sample Tracking System

Specimen Storage Log Form #830

Instructions: Each storage log will contain information about the blood cryovials and urine cryovials and urine stock tube for one specimen collection for one participant. Complete Q. 1- 4, scan the barcode from each cryovial or tube, and enter the flag for any cryovials were marked with a black dot due to insufficient blood/urine. Print a copy of the completed log to file with the participant study documentation.

--	--	--	--	--	--

1. Identification Number

--	--

2. Alphacode
(auto populated)

--	--	--	--	--	--	--	--

3. Date of collection (mm/dd/yyyy)

4. Biorepository Kit Number LPVD
(Center number is first two digits, LPVD=L-PVDOMICS)

Sample Barcode (scan the code from each tube or cryovial)	Tube / cryovial top color code (auto populated)	Was the cryovial marked with a black dot? (1 if Yes, blank otherwise)	Comments
_____		___	

This information will be autopopulated:

Date log created (mm/dd/yyyy) ____/____/____

Username of person creating the log _____
