

PVDOMICS Study - Instructions for Installing/Upgrading Java

Java is the application to run our Oracle Forms application for the PVDOMICS Study. Please follow the steps below to install or update your Java.

Please note that if you don't have permission, you may **need to contact your local IT support.**

A. Go to: <http://www.java.com/en/>

1. Click on the link "Do I have Java?" to obtain your computer's current version number.
2. Click on "Agree and Continue"
3. Click on "Download Java Now" to get current version
4. Click "Agree and Start Free Download"
5. If you get a pop-up box at the bottom of your screen that says "Do you want to run or save JavaSetup.exe from sdlc-esd.sum.com?", then click "Run"
6. On the "Welcome to Java" page click "install"
7. Uncheck the box "Install the Ask Toolbar in Internet Explorer" and click "Next"
8. Java will install
9. Uncheck "Restore Java security prompts" and click "Next"

You have successfully installed Java!

B. Please leave the check mark in "Restart my browser now to complete the installation" and click "Close"

1. Java will close and re-open in another window. Click "Enable" where it says "The Java™ Plug-In SSV Helper add-on from 'Oracle American, Inc.' is ready for use"

C. Go to the computer Start button, left click and select the Control Panel.

1. Select Java and click on the "Security" tab.
2. Click on "Edit Site List"
3. Click "Add" and type the following into the box labeled 'location': <https://ghsapps.ccf.org> and press "OK".
4. Close your browser and restart to access the PVD Database.
